THE ARGENTINE BOOM.

According to latest advices, the rise in Argentine Shares and Stocks in London is quite phenomenal. This sudden spurt in River Plate Stocks is due to the enormous accumulation of capital in London, to the immense amounts of money thrown upon the market through the Goschen conversion of Consols, and last, not least, to the amazing strides announced in the progress of the Argentine Republic. Argentine credit is now on the crest of a great wave, and all other new countries are quite eclipsed by the Argentine glare. Even our Paris friends, whose geographical lore does not extend much beyond Calais, are paying much attention to the River Plate, and several financial Mentors have sprung up in the Parisian journals to advise Argentines not to go too fast.

Meantime the following excerpts from our London exchanges received by the mail, will be read with interest:

"In connexion with the issue of the letters of allotment of the Six per cent £100 Preferred Shares of the Cordoba-Rosario Railway Company, which were very extensively applied for and have been very widely diffused, an active demand sprang up for them on Wednesday, and on Thursday the price touched 14¼ prem. It closed yesterday at 13 to 14 prem., showing an advance of three for the week.

"The letters of allotment of the City of Buenos Ayres 4½ per cent Loan were issued on Thursday by Messrs. Baring Brothers and Co. So well has the Loan been applied for that the average rate of distribution is only about one-tenth. Accordingly, the Scrip was firmer yesterday, touching 3½ prem., and closing at 2½ to 3 prem. on the issue price of 80½, being a rise of 1½ for the week.

"The letters of regret and letters of allotment of the City of Santa Fe Six per cent Sterling Loan were delivered in the middle of the week. The Scrip was last quoted at 4 to 4¼ prem.

"The Five per cent Debenture Stock of the Argentine North-Eastern Railway Company, Limited, was quoted yesterday 4 to 4¼ prem.

"The £100 Six per cent Preferred Shares of the Villa Maria and Rufino Railway Company, Limited, were quoted yesterday at 6½ to 7½ prem.

"The Five per cent Guaranteed Debenture Stock (20 per cent paid) of the Cordoba Central Railway Company, Limited, was quoted yesterday ½ to ¾ prem.

"As regards Foreign Railway Stocks, Central Argentine has risen 5, Buenos Ayres and Rosario Five per Cent. Debenture Stock 1½, North West Argentine Six per Cent. First Debenture Stock 3½, North-Western of Uruguay Six per Cent. First Preference 1½, East Argentine Six per Cent. Debenture Stock 1, Great Southern Buenos Ayres and Rosario Ordinary ½ Midland Uruguay ¼. At 4 o'clock Buenos Ayres Great Southern Ordinary Stock was quoted 217 to 220 xd; Buenos Ayres and Rosario Ordinary 179 to 181 xd; Central Argentine 199 to 201; North-Western of Uruguay Six per Cent. First Preferred Stock, 85 to 90; ditto Five per Cent. Second, 52 to 54; ditto Ordinary Shares, 10 to 12.

"It is to the searching out of good investments in the second and third classes of Securities that attention is now chiefly turned; and, as to these, the inquiry is very keen. Nowithstanding the advanced prices lately attained, the public are still absorbing Home Railway Stocks, simply, it would seem, because they do not know what better to do in the Home field. In the Foreign direction investments are being made with an unusual degree of freedom. The rise in Argentine State Bonds and Railway Securities, whether guaranteed or not, makes fresh progress from week to week, and proceeding almost insensibly, is both larger in amount and more general than most people imagine."

Latest particulars of the risein Argentine Railway stocks will be found in our Railway column.

THE WESTERN RAILWAY v. E. CASEY.

MR. CASEY WINS THE DAY.

The above suit, which had extended over a considerable period of time, is now at an end, Dr. Pizarro, Civil Judge, having delivered sentence yesterday in favor of Mr. Casey. We may be excused if we recapitulate the particulars of this suit, for, such are the law's delays here, it is more than probable no one but the parties immediately interested knows anything about the case. The Railway founded its suit on the following grounds: In the first months of 1886, Mr. Edward Casey applied to the Board for some land held by the Railway in Barracas al Sud, on the bank of the Riachuelo. After a lot of red-tape and formality, the Provincial Executive authorised the Board to sell the land to Mr. Casey at cost price. This decree of the Executive gave rise to some question, which was cut short by Mr. Casey writing to the Board and assuring them that they would not lose a dollar. The documents were then drawn up and signed and the price was arranged, viz, $602,299. But the ink was hardly dry on those documents when the Board came forward and declared they had forgotten to include the amount of interest due for the time elapsed from the date of purchase by the railway to the date of sale. The Board claimed on this account an additional sum of $76,449. Mr. Casey refused to pay that amount, and in the meantime he had sold the land in question to the Central Produce Market Company. Mr Casey refused to pay the $76,449, on the ground that the claim had been made 9 months after the signature of the contract. He proved that the interest demanded could not be included in what is termed "cost-price." He shewed, moreover, that he had fulfilled his promise, when he assured the Board that they would not lose a dollar by the transaction. The suit having passed through the various stages in the Courts was brought before Dr Pizarro, Civil Judge, who delivered sentence yesterday as already observed in Mr Casey's favor. The fees of Dr Morel and Dr M. G Mendez, Mr Casey's lawyers, have been fixed by the Judge at 8000 dollars and 3000 dollars respectively.

CRANWELL v. SEEBER.

Ex-Lord Mayor Cranwell has begun to publish in chapters a manifesto explaining his management of the finances of the Municipality and refuting all the charges of the 'Hacienda' Committee of the Corporation. Mr. Cranwell begins by showing that if the charges were true the lion's share of the responsibility would fall on the shoulders of the very municipal members who attack him now with such vigour. He then proceeds to turn the tables on them and shows the exaggerations they have indulged in with regard to the budget expenditure of the last five months. It appears that the honourable members of the Hacienda Committee have taken the total budget of 1889, divided it into twelve and then compared the monthly average, with the expenditure sanctioned by the Lord Mayor in the five first months. Mr. Cranwell shows the absurdity of such a process, and takes the corporators to task for their unjust attacks. The most interesting chapter of the manifesto up to the present is that relating to Mr. Seeber, the present Lord Mayor, whose hostility to his predecessor's management is explained to a great degree.

Mr. Cranwell states:—

"When Mr. Seeber returned from Europe he found a state of affairs at variance with his most cherished and enthusiastic dreams.

"He had visited and examined the slaughter ground of the principal European capitals. His patriotic enthusiasm prompted him to start model slaughtergrounds in the great capital the management of which he should soon control. But he found on his arrival that the concession for new slaughter grounds had already been granted. This annoyed him.

"He found that a contract was being carried out for wooden pavement, a system of pavement he criticised from the other side of the ocean. This riled him also.

"He found that there was a contract made for five years' repairs of the street pavement, and this exasperated him.

"He found that large areas of municipal land had been sold at prices much below those current to-day; operations that did not meet with his satisfaction.

"He found that only recently municipal lands had been ceded for a long term of years to start a public bathing establishment: this concession appeared objectionable to him.

"He found that the municipal finances were in a bad way, and this filled the cup of his disappointment....."

70 o/o.

With feelings of dismay the market saw gold bounce yesterday to 70 o/o premium. Where will it stop? is the query of all. If Minister Varela's bills and all the expectations that hang thereon are insufficient to meet the pressure in the market, to what elements will the government resort to normalize the situation and appreciate paper-money? For the first time in the lengthy and dismal record of our forced currency existence have we seen gold touch 70 o/o premium. We still remember the panic that ensued when hostilities nearly broke out between Great Britain and Russia in the Afghan difficulty, when a whole market went mad and rushed to buy gold. But even in those moments of panic, in the midst of an electoral campaign, whilst the Provincial Bank of Buenos Ayres was pulling against the National Bank, gold never exceeded 65 o/o; and when it did touch that figure it was merely in a panicky moment.

To-day, however, we see gold fixed at 65 o/o, and if it reached 70 o/o yesterday, it is because the tendency of the market showso a steady, upward tone, all the more ominous in the absence of panic, of electoral struggles, and of international questions. The rise in the market is not the outcome of any speculation; it is not the melancholy Bolsa dealer that is pushing up prices; no, it is the normal march of the market that is driving gold skywards, and this makes the situation all the more serious.

Is the Government impotent, unable to cope with the situation? Is the market the master, not the men who hold the reins of power? To such a question there can only be one answer—the market is almighty, and no decree of the Argentine Executive can turn the current of the moment. Governments at best can suit themselves to situations and make the best of them; they may deviate the channel of a river after months or years of engineering work, but they cannot rush against the current without being swept away.

If we be intent on going back to specie payments, let us not stop to cut off the effects of the evil of depreciated currency: as well fight windmills like Don Quijote. Let us aim at the root of the evil, radicated in extravagance of the Government and inflation of credit through the enormous issue of paper money and Cedulas. Let us cut down the budget, nip in the bud such wild dreams as those of the new Lord Mayor, with his 30 million dollars folly, put a stop to the issue of paper, and smash the printing presses of the mortgage banks. But as long as the National and Provincial Governments go on at the present mad pace, launching foreign loans to start free banks, issuing millions upon millions of Cedulas to inflate the value of real estate, throwing fresh issues of bank-notes on the market, and increasing taxes to squeeze a barbarous revenue out of the country—as long as this process of kite-flying goes on, we might have Leon Say or Gladstone in the Finance Office, and to no avail.

A seventy per cent premium on gold is a pretty fair barometer of our financial condition, and may be that an 80 per cent premium will prove it still more forcibly ere long. We are rapidly approaching the financial condition of our Transandine neighbour, who pays 100 per cent premium as a rule. Meantime, we see the most prosperous, progressive and vigorous nation of South America, the River Plate, the El Dorado that is rivetting the eyes of the whole world, plunged into the mire of a depreciated currency—at a discount of 41 o/o!! What will Europe think of our financial management?

REAL ESTATE IN ASUNCION

Asuncion June 11th 1889

The vara of land in this city varies from ten to fifty dollars according to situation. Capital is now abundant and being more and more employed every day; there have been started, some of them recently, many companies, such as the Commercial Bank, the Territorial Bank, the National Bank, the Paraguay-Argentine Society, the Paraguay Central Railway Company, the Colonizing Society, the Paraguay Industrial Society, the Paraguay Land Company, most of them quite unknown until recently. Add to these the Tramway companies the telephone and telegraph companies, and it will be seen that the country has made a fair start in the road of advancement. The small shops of the past are being rapidly transformed into importing and exporting houses, the necessity of which is shown by a visit to the port, where you will see eight, ten or a dozen steamers anchored in place of a few small sailing craft as was the case a few years ago. The government receipts amply cover the outlay, which amounts to about two millions of hard dollars; no one cares to sell city property, also it is enquired for eagerly; for houses which formerly could be bought for a thousand dollars now twenty thousand are offered; and camp property which was formerly unsaleable now realizes up to ten thousand dollars a league; the Government employes are now punctually paid, and the population according to the last statistics is calculated at 430,000 souls, shewing how rapidly the country is overcoming the evil consequences of the last war.—The *Razon*, Asuncion 8th inst.

LONDON LETTER.

SPOTLESS ERMINE.

(*From our own Correspondent*)

May 9th.

Last night I sent you an abbreviated report of yesterday afternoon's proceedings in the Parnell Commission. That matter is still the only important subject of the hour. You will have seen from that report the hostile attitude of the President and his two colleagues on the bench in regard to the request of Mr. Parnell and his counsel that the Attorney General should not be allowed to insinuate by the mere process of reading a list of names that Mr. Parnell gave cheques to assassins, without giving him an opportunity of explaining, as he subsequently did, that some of the names in whose favor he had drawn the cheques were not, as the Attorney General, "greedy to impute evil", tried to make apparent, the names of compromised people, but of innocent people of similar names; and other names which afterwards became compromised were the names of "suspects" for whom Mr. Parnell and the Irish party in general subscribed to protect them against a conspiracy of Castle officials. But that was not the most serious part of the proceedings in Court. You will have seen that when Archbishop Walsh replied with a simple negative to the question whether it was thought compromising for priests to support the Land League, the President particularly observed that "we"—the Court—"would draw our own inferences" from the Archbishop's answer. The London correspondent of the *Freeman's Journal* says that many of the Irish party, upon hearing the President's remark, strongly advised Sir Charles Russell to retire from the case and leave the three lawyers on the bench, and their virtual nominator, Sir Wretched Webster, to settle the question in their own way. As a matter of fact, the lawyers may do what they please. The country has acquitted Mr. Parnell of being implicated in the acts of the more violent portion of the Irish party any more than a leader of that party must be in spite of all his precautions. The Tories and Liberal Unionists at this moment accuse Mr. Gladstone and others of the Liberal party of being accessories to Irish crimes against person and property. The refusal of the evidence of Archbishop Walsh in favour of the action of the Land League was all the more hideous, seeing that the Attorney General has been permitted to bring a crowd of witnesses to prove the evils of the operations of the League and the plan of campaign.

In regard to the "cheques" it is only fair to say that this morning Sir Charles Russell thought it better to apologise to Sir James Hannen for resisting his ruling the day before. It is also fair to say that the weather had become suddenly and exceptionally hot, and the atmosphere of the court might well have caused a slight and abnormal cerebral excitement in judges, counsel and witness. There was some excuse for Russell and Parnell, being Irish and also the injured parties. For Hannen's exhibition of temper and bias I must say even the weather was barely a sufficient plea.

The examination of Archbishop Walsh was continued this afternoon. The Revd. Michael O'Connell and the Rev. T. B. Considine, a Irish priest of Ardrahan, were also in the witness box. Sir Henry James whose early breeding was not choice, was a little insolent to Mr. O'Connell, asking him "if he shot his birds dead?" And addressing him as Mr. Parish Priest when he was not a P. P. at all. Mr. Lockwood on the other side told Sir Henry "to be have himself," at which another little scene arose, the President jocularly taking the part of James, and Mr. Lockwood ultimately smiling at the President's sallies and apologising to Sir Henry James.

The tendency of the cross-examination was of course to show that the priests by not denouncing crimes encouraged them. Therefore great stress was laid upon boycotting, and the definition of that lesser crime that might serve to hook in more serious accusations. The priests very clearly defined "exclusive dealing" from the major form of boycotting entailing injury and privation. Their evidence as to their denunciation of real crimes and the reasons they gave for the existence of the Land League, and their evidence as to its beneficial operation eight or ten years ago in relieving people from starvation and enabling them to pay their rents and reenter the homes from which they had been evicted, will have a good effect on that portion of the English public which knows nothing of Ireland beyond what it was told by the *Times*.

Sir James Hannen made a senseless observation when the counsel for the Irish side was heightening his description of the people's misery by saying "they never tasted meat." Sir James, unable to contain his prejudices, remarked that as to that, he would require medical evidence to prove that animal food was necessary. Sir James himself had just lunched and was inclined to be facetious. The dreariness of the protracted trial is affecting his temper and probably his kidneys, and he allows us to see his cards. His game seems to be according to the common English rules which are in the present case mere municipal rules as compared with those international questions that undoubtedly in equity should govern disputes between the Irish nation and ourselves. This has been admitted over and over again by the *Times* itself when speaking of the Irish as 'aliens.' The bench in its plain English—almost vulgar English—will perhaps say, we have nothing to do with abstract considerations. "What we want," said Sir James Hannen to Archbishop Walsh "are facts." "We," the bench, have nothing to do with people's bellies, or whether they are fed or starve, or whether they think this or that just or unjust. We have to administer the law as it exists, the law that condemns boycotting and all attacks on the sacredness of property, and holds as suspected those who condone such crimes. Therefore, we rule that certain charges and allegations made by the *Times* are proved, and if certain other and specific charges of a graver nature against one Charles Stewart Parnell "are not proved, more is the pity." And the greedy, the inhuman, the obese, the common, sporting, grabbing English 'ear 'ear! But the verdict of the Judges in commission, whatever it may be now, will be as nought. The verdict of the country has gone forth from Edinburgh which, in spite of a mock plebiscite, has bestowed the freedom of that classic city upon Mr Parnell; it has gone forth from Whitehall Avenue from a crowded meeting of the National Liberal Club who yesterday elected Mr. Parnell a life member. There was opposition at the Club. Two questions were rightly asked—"is Mr. Parnell a Liberal at all?" "Has not Mr. Morley just said that Mr. Parnell was not bound to the Liberal party?" "Is it not as likely as not that the first conservative prime minister in the Irish parliament will be Parnell?" Quite possible. But the votes of Edinburgh and the London Club were less an offering to Mr. Parnell individually than a protest against British narrowness and vulgarity.

Railway Items.

A FEW WORDS ABOUT A NEW RAIL—BOOM IN ARGENTINE RAILWAYS—OTHER ITEMS—ANOTHER EAST ARGENTINE RAILWAY DEFICIT—THE ROSARIO LINE PAYS A FINE OF 4000 DOLLARS.

Our readers will find elsewhere full particulars of the suit Western Railway versus Casey, and will see the case has been decided in favor of Mr. Casey.

We had an opportunity yesterday of inspecting the samples of the Argentine Rail (Mr Fitzgerald's Patent) at Messrs J Wood and Co's store in front of our office. This invention, owing to its simplicity and evident utility, is calculated to afford immense benefits to iron tracks in which it should be used, giving them a firmness and solidity never had before, especially in districts where the soil is of a soft nature. Mr Fitzgerald patented his invention on 13th February last, and since has had his castings made, of which the following is a description:—

The rail is made with an oval base of the width necessary, according to the use for which it may be adopted. This base combines the properties of base "and sleeper" in one sole piece. To facilitate their laying on paved roadways and for the better preservation of those, the rails can be made grooved, thus enabling them to be laid on a level with the paving.

In each end of the rail there is a rectangular slot, so that joining the ends of two rails the slot forms a rectangle to admit a key made to its dimensions.

The fish-plate is punched to correspond with slots, as well as for the admission of the ordinary screw-bolts, which are made to fit between the head of the rail and its base, and when screwed up forms, with rails, one single and solid piece. The form of the rail admits of the fish plate being made larger than those usually employed, thus giving greater strength to the joint.

The key is rectangular in the part passing through the fish-places and joint of the rails and forms a screw at the end. Once screwed up, the joint has the same strength as any other part of the rail, and the depression actually caused by the passing of vehicles is prevented, thus saving the actual wear caused at the points of the rails.

The tie-bars are punched with three holes at each end, two corresponding to the part outside the rail and one inside, to admit split keys. Once the tie-bars are fastened up there is no possibility of the rails opening, and this is a most important matter, as if the ballast should give way the rails will always retain their gauge.

To sum up, adopting this rail a solid line will always be had without any possibility of the opening of the rails, even in the event of the ballast being carried away by rain or other causes, and at the same time will afford an immense economy in laying.

The B. Ayres and Rosario Line carried last April 27,208 first-class and 26.792 2nd class passengers, and 14,983 tons of goods.

The poor East Argentine Railway, which is booming in London, comes out of April with a lamentable deficit of over 7,500 dollars, as the following figures will shew:

	$
Gross returns.....	16,375
Working expenses...	24,049
Deficit.....	7,674

That is to say, the expenses are 147 per cent. It is consoling, however, to see the stock booming on the London market.

The net earnings of the B. Ayres and Rosario Railway in March, according to information just sent by the manager to the N. R. Board, amounted to 189,205 dollars, the gross returns being 368,663 dollars.

The net earnings of the Ensenada Line in March were 57,614 dollars. Gross earnings 120,196 dollars.

Mr. J O'Connor's report on the Southern Railway dated 17th inst. was received yesterday at the N. R. Board, and shews how well managed the Line is. Mr O'Connor's report is a very high compliment to the zeal and ability of the gentlemen entrusted with the management and working of this great line.

The Buenos Ayres and Rosario Line paid up yesterday its $4,000 fine. The line got off comparatively well, considering the extent of the disaster at Bancalari.

The other lines owe about 19,000 dollars in fines, and Dr. Araoz has applied to the Judge to compel the companies to pay up.

Mr. Ketteler, C. E., has been appointed on the Central Northern inventory staff.

Mr. Audrieu has been named in lieu of Mr. Moncomie as 1st class engineer.

Four wagons were reduced to matchwood the other day on the Central Argentine Railway, owing to couplings snapping.

The Inspector General has reported favorably on Messrs. W. Moores & Co.'s application to be allowed to run a train between the South Basin and South Deposits.

In the course of the last meeting of the Central Argentine Railway shareholders, a summarised report of which we published on the 8th inst., the chairman, we note, very highly complimented Mr. Malcolm Graham, the talented assistant-manager, who ran such a narrow escape of being carried off during the cholera epidemic in Rosario. Mr. Graham's health was seriously shattered by his unceasing hard work and he is now in England, where we hope he will completely recover.

The Government has approved the transfer by Meiggs and Co to the Northern Santa Fe Railway Company of the line from Nanducito to Presidencia Roca.

Government has approved the plans of the line from Chilecito to Cerro Famatina. The Kilometric cost must not exceed that fixed by the Act of Congress.

The Governor of Chubut announces that the Central Chubut Railway was opened to traffic on the 12th inst.

Yesterday's exchanges from London brought the good tidings of a booming tendency in all Argentine railway securities. The suddenness and generality of the rise have taken the market by surprise and must cause us no disagreeable impression. To proceed to details, we may summarise as follows:

Argentine Northern Central Railway Extension Five per Cent Government Mortgage Bonds have risen from 94 to 100.

Entre Rios Six per Cent. Central Railway Mortgage Bonds have risen from 100 to 106.

Entre Rios Central Railway Six per Cent. Extension Mortgage Bonds have risen from 99 to 100, the 3 per cent. dividend due March 1 having, moreover, been paid in the interval.

Santa Fe Western Central Colonies Railway Five per Cent. Mortgage Bonds have risen from 99 to 100, ex the 2½ per cent. dividend paid on the 1st ult.

Santa Fe and Reconquista Railway Five per Cent. Mortgage Bonds have risen from 96 to 99½.

Since the beginning of January Buenos Ayres Great Southern Railway Ordinary Stock has risen from 206 to 219.

Buenos Ayres and Ensenada Railway Ordinary Stock has risen from 152 to 203 ex div.—a difference of no less than 51 per cent. The same Company's Seven per Cent. Preference Stock has risen from 157 to 202 ex div.—a gain of 45 per cent.

Buenos Ayres Northern Railway Ordinary Stock has risen from 172 to 181 ex div., and its Eight per Cent. Preference Stock from 222 to 237 ex div.

Buenos Ayres and Pacific Railway Seven per cent Debenture Stock—a Government security, has risen from 138 to 144.

Buenos Ayres and Rosario Railway Ordinary Stock has risen from 170 to 180.

Cordoba Central Railway Five per cent Debenture Stock (having a Government guarantee) has risen from 108 to 112.

East Argentine Ordinary Stock, Guaranteed Seven per cent, has risen from 101 to 109, and six per cent Debenture Stock from 114 to 120.

So pronounced a boom is one more proof of the growing confidence which London now places in the progress and development of the country; and although the Cannon-Street Railway Boards may, with their usual somnolent audacity, dreamily attribute the "boom" to their foresight and prudent management, we cannot help thinking that the country should be the sole claimant for the laurels of this London triumph. People on the Thames are beginning to see that in spite of gold at 65 and the utterances of wiseacres, who, if properly questioned, would perhaps be at a loss to locate even Buenos Ayres, the Republic is young and vigorous, and its resources gather strength every day.

EDITOR'S TABLE.

There was nothing particular on or of the cards yesterday except the balloon-like rise in gold. The weather was in or about the right thing. In English fashionable circles the great success of "The two Roses" in the Florida Garden Theatre was the prevalent theme, (see another column for details). The gay and festive Gauls were in patriotically high spirits because they swept the field in the Grand Prix race on Sunday, not a horse belonging to "Jean Boule" being even placed. No more bogus Santa Fe "fivers" turned up, at least that we heard of.

There was no sitting of either House of Congress yesterday. Weather quite too cold for a quorum.

Ex Lord Mayor Cranwell published in the *Sud America* of yesterday evening the first part of his defence of his "pro-tem" administration of city affairs.

A general meeting of the Choral Union Society will be held this evening in the school-room of St. John's Anglican Church at 8 p. m., for the purpose of confirming the rules revised by the Committee, and selecting a room for the rehearsals.

President Juarez's winter evening receptions at the Government House will commence on Friday next. Eight o'clock is the hour.

The complaints about the bad service of the Northern Railway on race days are getting wearisome and absurd. The fact in that there is no ground for complaint at all. The train after the races on Sunday last had *twenty-two* carriages, and was *half a kilometre* long. No manager could safely allow a longer train, and Mr. Brown purposely ordered the train to be driven slowly to avoid danger to life. It is quite impossible for trains from the races to reach town at a fixed hour when they do not leave at a fixed hour, as other trains that have a fixed hour come in their way. Let a certain hour be named for the train to leave the race-course, and then it can reach town punctually. At all great races in England this is the rule; and those who do not or cannot catch the first, get a second or a third. This arrangement should be adopted by the Northern railway.

The result of the Grand Prix is somewhat astonishing. The wire is: Vasistas 1, Fourtant 2 and Aerolithe 3. The form of the winner was very bad last year, and Fourtant's was no better. "Where were the English horses?" will doubtless be asked by many of our readers, and it is certainly difficult to give a satisfactory explanation. It is, however, some consolation for this new "revanche de Waterloo," to remember that the best of the year were not entered for this event.

The following telegrams are lying at the "Internacional" Office for want of direction:—For Zrandoley, from London; Whimsical, from Rio Janeiro; Becco Gagiolo, from Genova; Necrosis, London; Rowessel, from Southampton; Jofre relej Vela, from Coruna; Decia, from Rio Janeiro; Anglican, London; Woorali, Varna; Casteignau, Bradford; Pearsall, from Anvers; Phippart, from Rio Janeiro; Antonio, Paseo de Julio 14, from Paris; Waterman, Marcelles; Carlicarto, from Bremen; Gjessan Levant, from Skudesnoes; Successor Bernardo Mayer, from Hamburg.

The meeting of the Corporation on Monday was looked forward to with the most intense interest by the public, as ex-Lord Mayor Cranwell had promised explanations as to his term of office; but he had not time to prepare them, and they stand over. There was a general debate, or rather conversation, on the delicate subject. Mr Cranwell put some pointed questions, and it is clear that he does not dread the fullest investigation. There was a general "brothers-we-are-all-in-the-wrong" tone about the whole business, and all the speakers appeared to feel that they were walking on ice that might crack under them at any moment. The only real business done was the naming of a Committee of Investigation, to help in the revision of the City accounts.

Viva! Public opinion, sometimes wins, even in this country. The Minister of Worship will present a Bill to Congress next week, reforming the Civil Marriage Act, abolishing the baptismal certificate and other clauses that involve trouble and expense. This is good news for "novios."

We give in another column particulars received by the mail about the alleged murder of Cronin in Chicago. (In yesterday's issue the name was erroneously spelt Croin in the Galveston telegrams).

A ruction something similar to what is going on in the Municipality here is expected in Mendoza. The Finance Minister and several government employés have resigned; and it appears that official money matters in the province of grapes are in such a very shaky condition that very rigid economy will be necessary. Of course no news from the far West would be complete without a groan at the shortcomings of the Argentine Great Western Railway, and there is a mild one tacked on to the telegram about the financial unpleasantness.

A baker's dozen of new members—two of them ladies—joined the Zoos on Monday. Soon every man and woman of any credit or renown in town will be a Zoo. Meanwhile the lashing, kicking and savage treatment of tram and cart horses is as bad as ever. Yesterday a very stiff note was addressed by the President of the Society to the manager of the City of Buenos Ayres Tram Company, in reference to the cruel treatment of the horses of that line. The Society is fast getting such a hold on public opinion that it will be able to make it hot for the tram companies, if they do not turn over a new leaf with their horses. The Electric or Naphta Motor is what is wanted to make things pleasant all round; Then they could carry 500 people in, on and round a car without the Society saying a word to them.

Colonel Capdevila has given his subordinates a well-merited rap over the knuckles, while pointing a moral that might well be taken to heart by other high public functionaries. He refuses categorically to accept the present which the Commissaries wished to make him, and for which they called on every officer and man in the force to subscribe. The gallant Colonel says he will have none of this kind of thing, and that the most agreeable present those under his command could make him is to attend strictly to their duty. Bravo! Colonel.

The rat-hole post office in Calle San Martin, corner of Piedad, is too utterly utterly small for the daily increasing crowd that frequent it, and the affable old gentleman in charge is worn off his legs and will soon be in his grave, if he does not get a larger office and more clerks. Such a wretched specimen of a branch p. o. was all very well a few years ago, but it won't do now. The crushing and squeezing, stamping on corns and poking in the eye with umbrellas and sticks that goes on every day in this Lilliputian post office is a caution.

Our population is getting jolly well mixed. Amongst the civil marriages yesterday was that of Mr Moses Pariente, aged 30, and Miss Fad Lufaty, aged 15. The lady and gentleman are both subjects of our distinguished countryman Muley Hassan, Sultan of Morocco, whose real name, we believe, is Mulligan.

PLAZO PARA LA ESCRITURACION
30 dias.

Se exigira el 5 o|o de sena al firmar el boleto.

Por orden del superior gobierno de la provincia y para destinarlos al ensanche del ejido de este importante pueblo, remataremos al mas alto precio, sobre las bases establecidas, estos esplendidos terrenos.

Ocasion como pocas o ninguna, para los agricultores que quieran comprar tierra que no tiene precio, por su producto extraordinario.

Los cereales se producen en el Salto como en ninguna parte, pero ademas de esto, estos terrenos tienen una especialidad que los hacen superiores á todos los demas de la provincia.

La semilla de alfalfa que se cosecha en el Salto es de calidad extra y es solicitada en el mercado a precios un 50 o|o mayor que la que se produce en otras partes.

Principalmente a la cultura de esta semilla forrajera, debe esta localidad los adelantos prodigiosos que ha realizado: Merced á sus propias fuerzas sin siquiera vias de comunicacion.

Calculese lo que valdra estas tierras, lo que tengan dos ferro-carriles y un tramway que las cruze

Al Salto! pues los agricultores a comprar tierra, superior, barata y con desembolso insignificante.

EXPLORATION & MANUFACTORY OF ARGENTINE WOODS.

Approved by decree of the National Government dated 30th March 1889.

Authorized Capital $5,000?00, divided into 5 series of 10 000 shares of $100 each

Payments 10 per cent every 3 months, like a Savings Bank.

When the 1st series is subscribed, the 4 remaining series will be offered to the public up to the 5th of June next.

The Society was started by 100 founders amongst them being 55 timber merchants of Buenos Ayres, La Plata, Rosario, San Nicolas and Montevideo, all skilled in the trade.

This is the most important and indispensable Industrial Undertaking of the country, and the one which offers the largest prospect of profit to its shareholders, from the opportunities it possesses of obtaining concessions and purchasing forests, of the richest and strongest woods requiring only the hand of the practical and scientific man and the power of capital to create the means of transport and economical manufacture, sales being sure, remunerative and easy in this Republic, as well as in Uruguay and Europe, in consequence of the natural requirements of Industry and Building. No business man or capitalist should delay subscribing for his own and his country's sake, freeing us from the enormous annual tax of $12,000,000 now paid by us to foreigners for woods inferior to the Argentine.

The cheapest and most effectual Dip in the market.

It costs a fifth of the price of Tobacco Dips.

It is the easiest of application, cold water only required.
It is the only Dip that is so durable in the wool as to keep the sheep clean and free from contagion from dipping to shearing, thus saving a great deal of valuable time and labour to the Estanciero during the winter months.
It is fast becoming the favorite Dip throughout the world, as it never fails in the worst cases of Scab.

The whole market staggered to-day under the appalling advance in gold, which boomed up to 170 and closed at 169½. There are of course numerous sellers at this rate, but the general impression is that the anabasis has not reached its climax, and even the brokers and opposition party, though apparently exultant over this backhanded blow to the financial programme, cannot conceal a certain amount of anxiety and apprehension. The market is, in fact, topsy-turvy. The rise in gold is a menace to all business, and even lands are now quoted at such unheard-of rates that buyers are flabbergasted. It is needless to add that there is a strong conviction that adverse undercurrents are at work in this unprecedented advance, and that a reaction is not only inevitable but imminent.

Business at the ring to-day was rather slack, and the principal feature in the speculation was the advance of Pobladora Shares, which, opening for end of month at 190, rose rapidly to 196, after which they fluctuated down to 194 and closed at 195; for end of July the quotation started at 203, declined to 199, and closed at 201. Considering the splendid business effected by this company with the Canalizadora Company, the shares seem still cheap, but it is said that many of the original holders are realizing, which keeps rates stationary. Credito Real Shares kept steady at 159 and 161 respectively for end of month and July, and brokers were busy debating Dr. Lamarca's letter in the *Diario* refuting a rumour spread that the bank would not pay a dividend for the year. Constructors seem weak at 136 cash and 136.50 end of month, which was attributed to the fact that a larger interim dividend was expected, but it seems that the bank pays only 6 o/o in order to make due provision for the demands entailed by coming in under the Free Banking Act. Flores Constructors were quoted at 128 end of month, but there was no animation in the stock, and even for the favourite Pobladores Scrip the demand has died out. La Plata Moles are firm at 166 for end of month and 170 end of July. Cedulas were fairly dealt in, but Provincial series keep ominously weak, especially the M, N and O series.

The statutes of the Sociedad Popular de Seguros e Economias were handed round to-day. A general meeting of members will be held on the 30th inst.

The Italian packet Perseo, which was posted to sail on the 20th inst., will not clear until the 22nd inst., as per notice of the agents.

The s.s. Dunedin has loaded 22,682 bags of maize for Dunkerque for account of the exporting firm of Dreyfus Freres.

The Custom-House receipts yesterday amounted to 143,948 dols., and for the month to date 2,288,001, or say 772,183 more than for same period last year. The returns for this year to date amount to 21,745,531, or 6,049,095 more than for same period of 1888. These figures shew how fast the trade of the country is going ahead.

Parana advices announce that a request for 500 colonists has been made to the Immigration Office to start another colony in Entre Rios. A bank is about to be started in Gualeguaychu on a capital of one million dollars in 10 dollar shares.

It was reported to-day that another proposal for a cable from the Plate to Lisbon, and on more advantageous terms than the Bieckert proposal, has been laid before the Post Master General. The proposers represent a syndicate of French capitalists, and they offer to lay the cable with a capital at least five million dollars less than that projected by Mr. Bieckert, and to hand it over to the State in 50 years, whereas Mr. Bieckert claimed a lease 40 years longer.

The following important sales of real-estate were effected yesterday:—Messrs. Gonzalez and Co. sold by auction 19,307 metres of land facing the Toloso work-shops at 1.92 mpn the square metre, or say 37,070 mpn for the lot. Another property in La Plata containing 2250 metres, with three houses and premises in Manzana R, Dock No. 1, was knocked down by Mr. J. Ferrando to Mr. Gonzalez de la Vega for 35,000 mpn.

The Constructora de Flores has sold to Mr. Ramon Gomez the splendid property known as the Quintana quinta for 175,000 mpn.

The house property Calle Cerrito 1184, containing 10x50 yards, has been sold to Dr. C. S. Bohim for 43,500 mpn.

Messrs. Portalis Freres, Carbonnier and Co. have petitioned the Minister of the Interior to ask Congress to admit free of duty the machinery for the works they have contracted for with Government.

Government has ordered the Engineers' Department to make the necessary surveys for the river works to protect the city of San Juan from floods.

The Rio Negro bar again! The Platense steamer expected for the last week in the Riachuelo has been delayed owing to the rough state of the Rio Negro bar, which was impassable for five days. In the month of April last, our readers may remember, the National gunboat Villarino was detained a fortnight owing to the same cause. If this be the case with steamers, what is the fate of sailing-vessels?

There is brisk demand at present for lands in the Rio Negro Valley. The proposed railway has brought a crowd of buyers on the market.

Business at the second hour was rather dull, the brokers being engrossed in discussing the gold question. National Bank shares were neglected, only a few lots changing hands at 266 for end of month. Constructors were firmer at 136½ for to-morrow and 137 for end of month, whilst Credito Real just held their own at 159. The Pobladores Railway scrip fell off to 58 for end of month, and La Plata market scrip to 36, but Pobladora shares were buoyant and in demand. The other stocks were firm, but neglected.

Messrs. Bullrich had two important auctions announced for to-day, one for lands in Paraguay and the other chacras in Chacabuco. There was no bidding and the sales were adjourned.

The La Plata Moles business, according to notice published, is now concluded, and the shareholders are now advised that they can either exchange their shares for shares of the new company at the rate of £20 sterling in preferred shares of 6 o/o interest and £5 13 4 in ordinary shares, for each share they at present hold, or liquidate their shares at 100 gold dollars each. The inducement to continue as shareholders of the new company is so obvious that no doubt this will, in great part, be done.

Messrs. Gowland and Co. have sold a large plot of land in the Boulevard Corrientes, between Velez Sarsfield and Almagro, at from 13½ to 15 dollars the square yard; buyers, Messrs. Domingo Castro and Rodrigo Botet.

The Nuevo Banco Italiano has purchased a site of 10x50 metres in Calle 7, facing the Post-office, and is erecting magnificent premises for the branch of the bank, which will, it is expected, be able to start business in a few months.

The *Mark Lane Express* says: "Major Craigie tackles the 'growth and development of the trade in frozen mutton,' as a skilled statistician only can. The low values of imported mutton in 1886-7 very considerably retarded the trade, giving rise to a belief that a total collapse might eventually follow. With a record of a nine years' completed experiment, however, Major Craigie regards the frozen mutton trade as practically established. Foreign mutton, it appears to-day, supplies nearly half a pound more for each adult of our population than is provided by the much older-established fresh beef trade. Six pounds out of every seven of fresh mutton eaten in England now come from New Zealand and the Argentine Republic, and it is to these countries alone to which the development of the frozen mutton trade must be ascribed.

From Oostendorp's Produce Circular, dated Antwerp, 17th May, we take the following items:—

"Movement in the hide-trade during period between May 3rd to date:—

	Dry-hides	Salted
Imports from River Plate	2,000 ...	14,900
Sales of R. Plate hides ...	800 ...	20,100
Sales of Rio Grande do ...		1,300
and 1,700 miscellaneous		
"Stock 116,700, viz.:		
River Plate hides	41,500 ...	66,600
Rio Grande hides	5,200 ...	2,800
and 600 miscellaneous.		

Principal exports from Montevideo during the month of May (taken from Williams and Co.'s Shipping Circular):—

14,147 bales of wool
2,739 bales of sheepskins
95 bales of hair
2,785 pipes of tallow
65,409 salted hides
54,921 dry hides
119,847 horns
7 tons horn piths
50 bags corn
6,833 bags bran
3 live mules

The *European Mail* says:—"The following telegram, dated April 30, has been received from the manager of the West Argentine Gold Company:—"Shaft—The reef is 3 feet in thickness; value, 12 dwts. gold per ton; in the winze, 14 dwts. gold per ton; in reserve, 3,000 tons." The above refers to the sinking on the Carolina Reef, which has been struck at a depth of 66 feet below adit level, with the result as cabled."

The *European Mail* says:—"The Royal Mail Steam Packet Company are evidently determined to look well after their Brazil and River Plate Service. The new steamer *Magdalena* which was launched on April 30, and a description of which appears in another column, is to be placed in the South American fleet, and in addition to this, two other new vessels 16 feet longer and ships are being built for the Brazil and River Plate trade. Doubtless the directors are acting, in a large measure, on the advice tendered by Mr. George Russell, who, on the resignation of Mr. Reed, was appointed to a seat at the board. At the recent annual meeting, the chairman—Mr. Eden Colville—admitted that "none of the directors had business relations with the Argentine Republic," but it is well known that Sir George, who is a Member of the House of Commons, is connected with various Argentine railways, and has a general knowledge of the affairs of the River Plate.

The *Economist*, reviewing the foreign trade of the Argentine Republic, says as follows:—

"The gain in the total imports is slight, and apart from a moderate increase in the case of Germany, the figures show no special feature. The exports, however, exhibit an increase of 26,764,000 dollars, or nearly 37 o/o. This increase is mainly due to a large gain in the so-called "cattle products" and in wool, the former showing an increase of about 18,000,000 dols., and the latter of about 12,000,000. It is worth noting that while the exports to England decreased by nearly four million dollars, those to France, Belgium and Germany increased, owing probably to the fact that quantities of wool, hides and skins which the Continent formerly purchased through the London market are now ordered direct.

The above figures do not, of course, include the imports and exports of specie, which were as follows:—

	1888 $	1887 $	Inc. or Dec. 1888 $
Imports...	44,803,000	9,749,000	35,054,000
Exports...	8,723,000	9,877,000	1,154,000

"It is noteworthy that even this great importation of specie was not sufficient to prevent a further rise in the premium on gold at Buenos Ayres.

DECKER'S
American Whiskey.
ABSOLUTELY PURE

This mild, mellow and delicious Whiskey is distilled from the finest growth of carefully selected Rye grain and Barley malt. It is a marvel of wholesomeness, excellence and evenness of quality, unequalled by any Whiskey in the market. It is bottled in bond for export only, is entirely free from fusel-oil, possesses a natural flavor and fine tonic properties, suited exactly for the use of invalids and weak and sickly persons. It is cooling, refreshing and strengthening so pure, smooth and ripe, and agreeable to the palate as to invite the attention of connoisseurs. 4 438 my20
